

FIND YOUR FIT

RACHEL
NATHAN

We create bracelets that are made-to-order and custom to you. To find your bracelet fit, follow these steps:

PRINT

Print these directions on US Letter (8.5"x11") size paper, set scale to 100%. Before trimming and measuring, confirm the accuracy of your print by placing a credit card on the guide below. If the card and guidelines match, your page is scaled correctly!

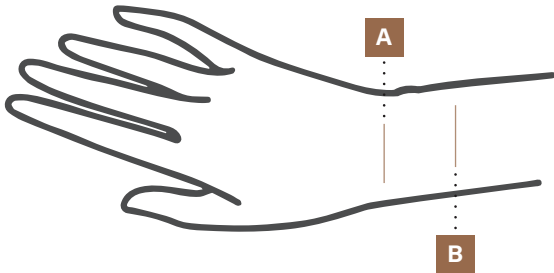

TRIM

Trim along the dotted lines, including the slit next to the RND logo.

MEASURE

Slide the pointed end of the ruler through the slit with the numbered side visible. Don't pull the paper tightly - lay it gently around your wrist without gaps.

ALTERNATIVE METHOD

Open your hand wide. Using a flexible measuring tape, first measure your wrist between your hand and wrist bone (A) by wrapping the tape snugly around your wrist.

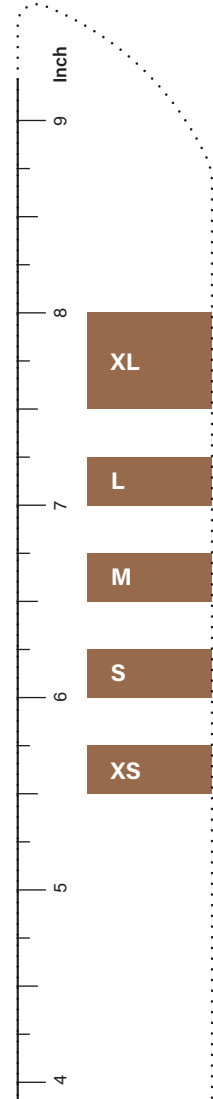

Take the second measurement (B) approximately 1 in. below your wrist bone. If the two measurements differ, average the numbers for your size.

DON'T SEE YOUR SIZE?

Contact us for custom sizing! We will create any sized bracelet you need, without extra charge.

DON'T HAVE A PRINTER?

Don't worry! You can use a flexible measuring tape or any strip of paper - our sizes match the marks on your tape or ruler.
